---

### PROFESSIONAL SUMMARY

Data Analyst skilled in Power BI, SQL, Excel, Python, Tableau, and Data Visualization with hands-on knowledge of dashboard development, reporting, data cleaning, and analytical problem-solving. Strong understanding of business intelligence concepts, reporting workflows, ETL processes, statistical analysis, and data-driven decision-making with foundational understanding of Machine Learning concepts.

### TECHNICAL SKILLS

- Business Intelligence & Visualization: Microsoft Power BI, Tableau, Power Query, Dashboard Development
- Programming & Databases: Python, SQL, MySQL
- Analytics & Reporting: Excel, Data Cleaning, Reporting & Analytics, Data Visualization

### CERTIFICATIONS

- Data Analytics – Yess Infotech, Sangli | **2026**
- Data Science – Yess Infotech, Sangli | **In Progress**
- CCC (Course on Computer Concepts) – NIELIT | **2018**

### EDUCATION

Bachelor of Computer Applications (BCA) | **2022**

Shivaji University, Kolhapur | 2022 | Grade: 7.3/10 – First Class

### WORK EXPERIENCE

Website Manager / Web Developer – Aajco Energy Pvt. Ltd. - **2022-2023**

- Developed and maintained company website using HTML, CSS and JavaScript.
- Managed website updates, troubleshooting and performance improvements.
- Improved website structure, responsive design and user experience.

### PROJECTS

#### Retail Sales Intelligence Dashboard – Power BI

Tech Stack: Power BI, Tableau, Power Query, DAX, Dashboard Development

Dataset Source: Kaggle / Public Dataset

- Developed an interactive sales dashboard to analyze revenue, profit, KPIs, customer trends, and regional performance.
- Designed KPI cards, filters, and charts to improve reporting efficiency and data visualization.
- Performed data cleaning and transformation using Power Query for accurate analysis and reporting.

#### Customer Behavior & Revenue Insights Analysis

Tech Stack: SQL, Excel, Data Visualization

Dataset Source: Public Dataset

- Analyzed customer and sales datasets using SQL queries including joins, aggregations, filtering, and data extraction.
- Performed data cleaning, sorting, filtering, and exploratory data analysis (EDA) on structured datasets.
- Identified sales trends, customer behavior patterns, and revenue insights through analytical reporting.

### ANALYTICAL EXPERTISE

- Data Interpretation & Insights
- Business Requirement Understanding
- Data-Driven Decision Making
- Report Automation
- Data Storytelling
